War Department Telling of Success of American Artillery Fire, Reports Nine Japanese Transports Debarking Troops at Port in the Lingaven Gulf

ACTIVITIES OF PACIFIC COUNCIL ARE REVEALED

Washington, Feb. 6-(.P)-Japanese gun emplacements on the southeastern shore of Manila Bay, apparently designed for an attack on the fortiess of Corregidor, have been destroyed by artillery fire from American fortifications.

The war department, announcing this today, also reported in a communique that nine Japanese transports were debarking troops at ports in Lingayen Gulf, approximately 125 miles north of Manila Bay, to remforce the large enemy concentrations already in Batan peninsula and other parts of the island of Luzon,

The Batan front, the department said, was relatively quiet in the past 24 hours, with decreasing enemy bombing attacks, which resulted in no damage. President Roosevelt asserted to-

BOY SCOUT WEEK

America is a big country. And yet, in almost every city, town and hamlet in the United States you will find a Boy Scout, or man who was a Boy Scout. With a total of ten million men and boys who are, or have been Scouts or Scouters during the life of the Boy Scouts of America it is hard to imagine many places where you would not find one or more.

For seven days beginning tomorrow Scouts will celebrate the thirty-second anniversary of the founding of the movement in America. The Boy Scouts of this community are part of this gigantic, nation-wide birthday week.

In a very real sense this birthday anniversary should be our celebration. We will be so much the better if we keep Scouting alive and vigorous. Character and citizenship, the aim and purpose of all Scouting activities are the real life blood of this and any other democratic community. These boys we see carrying on their Scouting and "good turn" activities are going to take our places some day. They can receive no finer training than Scouting affords them for citizenship in a free

We have a growing admiration for these young men -alert, capable, thinking and acting on their own. Their course will be true—their heads high—because they stand by the Scout Oath and Law which reads: "On my honor I will do my best-

"To do my duty to God and my country, and to obey the Scout law.

"To help other people at all times.

"To keep myself physically strong, mentally awake and morally straight."

DR. C. E. ALLEN

(Ridgway Record)

In the passing of Dr. C. E. Allen, a retired minister of the Methodist church and a former pastor of Trinity church in Ridgway, there has come to a close a life that was filled with useful and devoted service to his church, to his fellowmen and to the general welfare.

Unusual ability, fineness of character and purity of aim gave distinction to his career and endeared him not only to members of his own denomination, but to all with whom he came in contact.

Dr. Allen will live in the thoughts of those who knew him best as a loyal friend, lovable and rare, who has left behind him the record of a full-rounded life, rich in service to his fellowmen and to his God.

WE MUST NOT LOSE FACE

Upton Close, well known lecturer who brought a stirring address to a Warren audience January 28th, 1937, and who knows the Orient, is quoted as saying that the greatest danger to the white race today is the danger of "losing face." The Orient is observing western civilization with a keen and appraising eye. The white Europeans and their descendants who in modern times have held the world in their hands, are not only engaged in a great struggle for supremacy among themselves. Two leading white groups, the British and Americans, as a matter of fact, are challenged by one of the leading colored races—the Japanese.

The boldness of this challenge, according to Close, has aroused intense interest among the colored races. They wonder whether Mother Asia, for 2,000 years held inferior to Mother Europe, and her children, is really so—whether they may not regain their old supremacy.

If this spirit of doubt, and a resulting surge of selfconfidence and rebellion is really sweeping through the vast Asiatic continent, arousing the brown and yellow races, there is all the more reason why our white race should put its whole strength into this world struggle.

"Loss of face is a very serious thing in the Orient,' Close says. "It would be no world for us to live in if we lost this way. We cannot afford the continuance of such set back as we have recently had in the Far East. We must turn the tide and do it quickly, not to thrust other races under our feet but to save our prestige and preserve our own ideals and way of life."

From the interest shown by music lovers and others who are anxious to help a benefit for a most worthy cause the Titusville Elks' Chorus, appearing at the high school this evening under the auspices of the local lodge, will be heard by a capacity audience.

POPPIES GROW WILD For many centuries, poppies have sprung up as a weed on any neglected land over areas of western Europe, so there was nothing supernatural in the appearance of the plant on battlefields of World War I.

A WASHINGTON DAYBOOK

By JACK STINNETT

WASHINGTON—If, come March 15, the size of your 1941 income tax knocks you for a loop, and you "just can't possibly pay it," don't blame the Treasury Department. It's no fault of theirs.

Theoretically, actually, legally, or any other way you want

to put it, the treasury is officially interested in HOW you pay your income tax. It is delegated only with seeing that you DO pay it.

And the Treasury Department, through the courts, can send you to the hoosegow and slap on fat fines and penalties and a little interest if you don't. cember.

THAT is how the laws say it I should be and the laws don't say anywhere that it is any worry on the treasury's part as to how you raise those dollars to put on the barrel-head.

of the Treasury Department as the Simon Legree of tax collectors isn't nearly as bad at it is painted—not in many instances

As a matter of fact, this sketch

You might not get any Treasury Department officials to admit it. but they do worry about how you

TAKE the 1941 jolt, for example. Even before Congress passed the bill, Secretary Henry A. Morgenthau Jr. and his staff were out with warnings that 1942 was going to be a solid year of paying and paying and that after that, it probably would get worse.

They never passed up an opportunity to hammer home the fact that you and I had better start saving if we expected to breeze through 1942 and years to come with a balance in the

Not only that, but they did a little extra-curricular thing They got out "tax anticipation" certificates, which corporations and individuals could buy against that day when they would have to lay it on the line. The corporations bought; the public didn't.

THERE is one other thing — a clause in the law. It permits you to pay your income tax in four quarterly installments, thus spreading the bumps out over the year; with payments due in March, June, September and De-

So far as the treasury here in Washington is concerned, that's the limit of its responsibilities to you in helping you pay your tax. However, in fact and practice, it does a little better by you than that,

Here's how: The collector of internal revenue in each district is charged with the tax collection in his district. If he and his staff don't do their job, they are booted out and a collector and staff are put in that can do it.

BUT actually the collectors have good deal of latitude in the methods they use in getting in those dollars. They only have to stay within the law and the law is specific on many points.

If you can convince your collector of your honesty, integrity and sincere eagerness to get that tax paid, the odds are that you'll not find him a hard-boiled whipcracker laying on the lash merely because the law says he can. Some collectors are tough; some

are as sympathetic as the law will allow. Most of them know their district and the people in it, and most of them are as human as red tape and their instructions permit.

If you have an honest problem (and I don't mean how to satisfy a \$5,000 appetite with a \$3,000 income) take it to your collector and take it NOW, before the March 15 rush wears him and his staff to a frazzle. The chances are he'll be able to help you.

most here and I need a new frock, but my budget won't allow it!" Anne Adams suggests you make up the two-piecer—Pattern 4910 -it will cost only \$1.41 to make, including pattern and findings! Your material is this pretty polkadot cotton print (you can find it for only 23c a yard) and your colors might be flower-fresh rosepink or aqua-blue sprinkled with polka dots . . A two-piece mode like this is so practical because you can wear the blouse and skirt separately with other clothes, too.

Don't you like the notched collar and trim set-in-belt—the slim skirt panel? The blouse may also have long or three-quarter sleeves. and it may be of a different fabric than the skirt,

PHILIP SANTORO

Teacher of the Violin

Warren Conservatory of Music

The prediction is that after this war, there will be a second Renaissance. In this new order culture will predominate, and music will be paramount. The violin offers opportunity for solo, ensemble and orchestra playing. Your child of 7 or 8 should start now, and why not give him the opportunity to study with a proven teacher? If you are going to spend the money, and he the time, give him the best teacher. I point with pride to 10 years as orchestra director in your local theatre, and 12 years of teaching, during which I have produced dozens of professional violinists, as well as top ranking amateurs. The reason back of the learning of these skills such as first aid knot tying, signaling and such sub jects by Boy Scouts is the motte emblazoned across the Badge "Be Prepared". This motto has al ways been literally interpreted by Scout leaders everywhere. Neve in Scout training is it assumed that certain emergencies will no arise and leaders train the boy with a firm behef that "Be Pre pared" means being prepared for anything and that means to then
